Quicz-Quiz

Quicz is a simple syntax for an effortless creation of quiz decks

2022-08-05 12:43:50

Abstract

Markdown is at the heart of Quicz' simplicity. Inspired by the way pandoc allows meta information in markdown files, yaml variables can be added at the beginning of a quicz-file

example-quicz.json

1

example-quicz.json

Quicz is a very simple format for creating multiple choice questions with clear human-readability in mind. What syntax is it inspired by and based on?
